

# AGENCY-CENTERED FRAMEWORK FOR AI LITERACY

AGENCY		
INDIVIDUAL <i>(You act directly)</i>	COLLECTIVE <i>(We act together)</i>	PROXY <i>(Others act for you/us)</i>
Understanding AI tools; knowing when and how to use them.	Being transparent about AI use, tinkering together.	Understanding what happens when AI acts for you.
Knowing what data AI collects about you, how it influences you, and the hidden costs of each query.	Advocating for AI that's accessible, safe, and built without exploiting people or the planet.	Recognizing hidden incentives in AI assistants and platform settings.
Knowing your values, goals, and moral compass.	Building shared values and community norms around AI use.	Keeping your own judgment strong, avoiding skill loss and over-dependence.
